

LATE PUNISHMENT.

[illegible]

Bersaglieri is published by me, Tom Mainardi, 1403 Lawrence Rd., Havertown, PA 19083 (215) 446-5611.

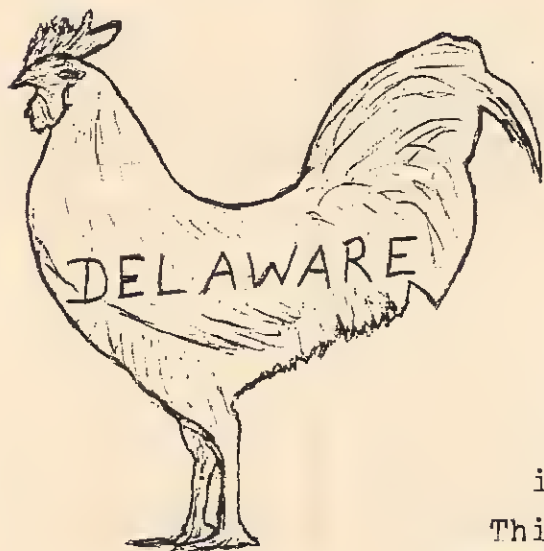

Subs to Bersaglieri are \$6 for 10 issues.

I Volontari: standby players: Arnawoodian, Byrne, Mills, Bohner, Williams, Craig, Hart, Fleming, Frueh, Russell, Givan, Haley.

**I you play out a game that you're assigned to, you get three free issues of Bersaglieri. Anyone else wish to join?

**You get credit for articles, commentaries, etc. that I use in Bersaglieri. For anything used you'll get at least 2 free issues. Larger articles, etc. get more issues.

I am very sorry for this issue being a month late. It was partly due to the holidays, my work schedule, and my immobility. I promise that I won't be a month late again if I can help it. I realize how frustrating it is to be in a game and not to get the results in a reasonable amount of time. Again, sorry for any inconvenience.

Positions are filling up in the new game start. There are now 3 spots left in the Delaware game. So far I have Evans Givan, Don Williams, Matt Fleming, and Gene Haley signed up.

The game fee is \$3 and you must keep a sub to Bersaglieri.

Last month's contest was incorrectly answered. I got one response to: Which US state flag is not a parallelogram. The one wrong answer was Texas when we all know that it's Ohio.

This month's contest: "What two countries have the same flag: same colors and arrangement?"

Hint: one of the countries is a "principality".

The first with a correct answer wins a free start in the Delaware game. --assuming there's a position left.

This past weekend was the annual New Years ByrneCon and as usual it was a very good time for all. All I should say except Robert Sacks. You see, Sacks was seething with anger and jealousy because the newly-formed Pennsylvania Gaming Board through its members and associates donated over \$60 to the hobby custodians, primarily the BNC, Kathy Byrne, and his New York Gaming Board gave nothing worth mentioning. He was also very angry that I (chairman) and Woody (corresponding secretary) would not allow him to be an associate member since he obviously does not support any hobby services. In fact, the NY Gaming Board does nothing to help the hobby. It merely is used by Sacks as a tool to steal funds that belong to the hobby and to accuse anyone who doesn't agree with Sacks of things that Sacks himself cannot prove and which he himself does.

New York GAMING BOARD Ensemble

→ SACKS

PAGB

I am happy to announce the formation of the Pennsylvania Gaming Board (PAGB). Its purpose is to promote the Diplomacy hobby throughout the state and beyond.

I myself am the Chairman of the PAGB.. The Corresponding Secretary is Steve Arnawoodian. Lee Kendter is the Eastern Coordinator and Roy Henricks is the Western Coordinator.

All those in the Dip hobby who reside in the State are regular members. All those living outside the state who wish to join are associate members. If you sub to Bersaglieri and reside outside of Pennsylvania, you are automatically a charter associate member.

It is the duty of any member or associate member of the PAGB to support the hobby custodians and the vital services that they perform. Therefore, it is your duty to see that they are not prevented financially from performing their various functions. I urge all of you who are GMs and use BNs that you contribute the usual \$1 or more each time you need a BN.

The cooresponding secretary has taken it upon himself to actively solicit contributions from members of the Dip community in the name of the PAGB to be given to the hobby custodians. I commend him on this fine undertaking.

The PAGB also supports and upholds the ideals and practices of the People's Diplomacy Organization. The Grand Kommissar, Mike Mills, has received an honorary full charter membership in the PAGB in recognition of his efforts with the PDO Relief Auction which will benefit the hobby services.

I must take this time now to do something that is not a normal function for the PAGB but which must be brought to the attention of the hobby at large. The withholding of hobby funds is a serious crime against the whole of the hobby. But that is exactly what a member of the NYGB is doing. His name has already been mentioned in this issue so I need not go fully into this matter. However, when a tournament is run at a national convention and the proceeds are withheld from the hobby by the person(s) running the tournament, then something definitely needs to be done to stop any future "misuse" of funds by that person(s). Does this mean not having that person(s) run any future tournaments -- you better believe it does. The PAGB will keep you abreast at what action or actions can and will be taken in the future to stop this sort of embezzlement and misappropriation of hobby funds.

If any of you have any ideas or suggestions regarding anything in the hobby please let me know. The hobby always can use new ideas and direction, because there are still a few hobby curmudgeons around who refuse to see reality--namely Sacks, Boardman, Walker and Berch-god. Until next time.....remember.....You've got a friend in the PAGB....

RETIREMENTS, ELECTIONS and TREASURY SERVICE

of the
PEOPLE'S DIPLOMACY ORGANIZATION

I am happy to announce the formation of the Retirements, Elections and Treasury Service of the People's Diplomacy Organization. RETS has the full backing and sanction of the Grand Kommissar, Mike Mills.

RETS is divided into three main bureaus: the Bureau of Retirement, the Bureau of Elections, and the Bureau of Treasury. Each of these bureaus is headed by a director. At present, only the Bureau of Treasury has had a director appointed to it. He is Tom Swider of Endwell, NY -- Zone 2. I am sure that I am leaving the Bureau of Treasury in capable hands. Tom has expressed his eagerness to begin his new job. The prime duty of the director will be to see that all revenue gained by the hobby is used to benefit, directly or indirectly the members of the hobby.

One of his more vital tasks will be to oversee the running of next year's PDORA. An other important job of his will be the regulation of any "Diplomacy Tax". This is a very unpopular concept throughout the hobby, however it will be Tom's job to report to me any initiation of a hobby tax by anyone (particularly any West Coast splinter group) upon anyone in the hobby without the explicit approval of the hobby at large through the intercession of the Bureau of Elections from which would come the results of such a plebiscite to determine if indeed the majority of the members of the hobby would want such a tax. I see no need now or in the foreseeable future, however, for such a tax or such a plebiscite.

I am at present considering Ed Wrobel for the post of director of the Bureau of Retirement. Ed has had experience with certain disability and retirements organizations in the past and I think his expertise would prove very beneficial. An update on his potential appointment to this position will be forthcoming.

As for the Bureau of Elections -- I am at a bit of a loss to find the right person for the job. I have therefore decided to go out to the hobby and solicit those who think they can qualify for the position of director of the Bureau of Elections.

The tasks of the director are fairly straightforward: he will work to insure that any election, vote, or plebiscite is conducted fairly and without bias. His range of duties, however, will not include the various hobby poles since that job is capably handled by the Bureau of Poles which does not fall under the authority of RETS.

If you are interested in the position of director of the Bureau of Elections, please send me a statement stating your reasons and qualifications for the job. Note: Robert Sacks need not apply.

I wish to thank the Grand Kommissar for allowing the establishment of RETS and for his confidence in me to head it. I will surely do my utmost to see that the service is run as it should be.

Berlin: I have just returned from a lengthy session with the French ambassador and (hmmm, I seem to have an itch in the center of my back), and I have been assured by the ambassador that peace between our nations is a certainty. Also we can (damn, that's a persistant itch) depend on our French allies to aid us in defense against an aggressive England.

The French ambassador assured me that our western border was secure. (damn, what the hell is that itch in my back!!?)

Don-Marc: I realize that I have made a mistake by attacking you, but your reputation precedes you and I just couldn't trust your good graces regarding Swe and StP.

Germany-GM: Just 1 missile, how about just 1 missile?

TRENTINO ALTO-ADIGE 82 HC END OF 1905

My second game in Bersaglieri has ended... TA-A is over.....

By a unanimous vote, a 2-way draw between England and Italy has succeeded!
Congratulations to Dale Bakken (E) and Tom Swider (I) for your 2-way.

A special thanks Don Williams and Mark Coldiron for staying with the game
to the end. This game did upset me at times with the numerous NMRS
but it worked itself out to be a good one.

Please submit endgame statements for next time. Deadline is Wed., FEB 14.

The following is an advertisement for a game being run by Paula Dodge who lives in northeastern PA. You may not have ever heard of Paula but she is a member of the PAGB and is in good standing as far as the Board is concerned.

TRY A BRAND NEW GAME -
ALIEN CONQUEST

A game of resource management.....So much fun to play yet no unbelievably complex rules.

If you start the game by January 15th, you get three free months of play. After that, it's \$2 per turn plus 5 cents for each order. The object of the game:

TO WIN, OF COURSE. And you can win 1 of 3 ways:

1. By being the first alien to conquer 52% of the galaxy.
2. By being the first alien to trade and exchange cultures with 52% of the galaxy.
3. By being the first alien to collect 1 million power crystals which are used in manufacture, technology, to power starships and as a money base for trade.

THE RULES consist of 1. Being assigned an alien family. You have to find food, find a crystal mine, find fuel and technology to support your family and to build starships. A hex map is provided for exploration and, when you reach the stars, a galaxy map. All moves are made by choosing a group of numbers from 0 to 9. The percentage of occurrence against a random assignment by my computer will give you your month's potential for achieving lucky finds in exploration, food, fuel, crystal mines and technology.

A simple, yet masterful game. Try it, you'll like it.

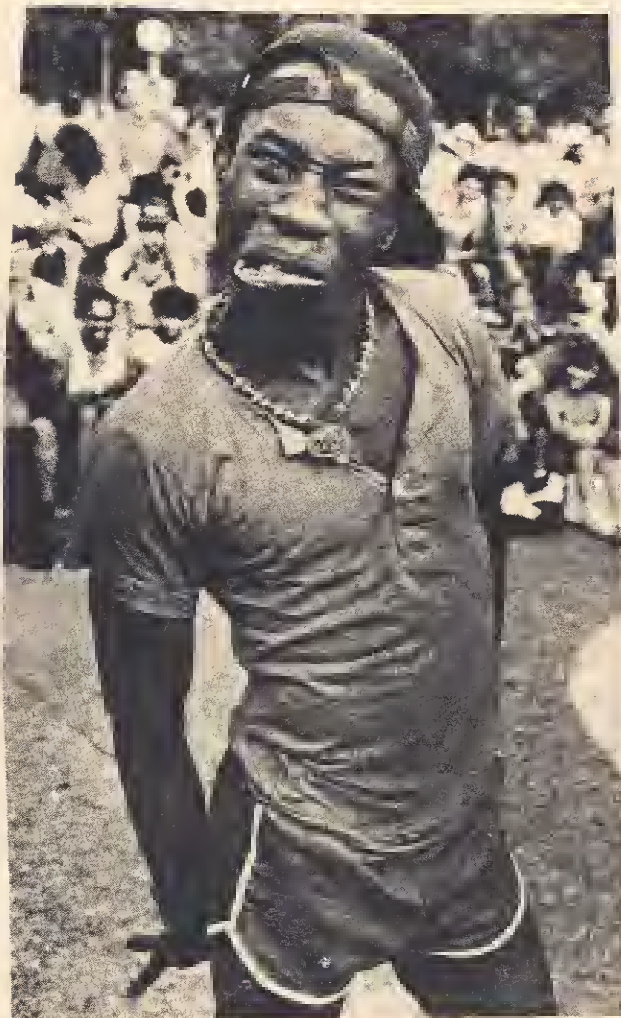

Redgod Enterprises, c/o Paula Dodge, P.O. Box 35, Warren Center, PA 18851.

THE RULES ARE FREE.
